4) The cost of Aikasa service for 24 hours is 140 / one hundred forty yen.

5) The Aikasa service is available at approximately half the stations in Tokyo.

VI. 解答例

I (could / could not) live without SNS. There are two main reasons for that. First, it would give me more time for offline activities like reading, painting, and spending time with loved ones. Second, it would improve my mental health by reducing anxiety caused by comparing myself to others on social media. While SNS helps connect people, I value deeper, genuine connections and prioritizing my well-being over virtual interactions.
